

GET A \$600-\$2250 REBATE WHEN YOU BUY A KOHLER® GENERATOR BUNDLE*

BETWEEN MAY 1 AND 31, 2017

GET RELIABLE POWER

for residential or small business needs when you bundle our KOHLER generators with the accessories you need to protect your home or business from power outages.*

Qualifying bundles must be purchased exactly as described here (no substitutions):

\$600 rebate when you purchase a 20RESA or 20RESC bundle including a generator, a 200-amp or larger RXT or RDT automatic transfer switch and two (2) Power Relay Modules GM92001-KP1-QS.

\$1500 rebate when you purchase a 38RCLB bundle including a generator and a 200-amp or larger RXT or RDT automatic transfer switch.

\$2250 rebate when you purchase a 60RCL bundle including a generator and a 200-amp or larger RXT or RDT automatic transfer switch.

BUNDLE ITEMS*

KOHLER GENERATOR 20RESA/C, 38RCLB OR 60RCL

When your power goes out during a bad storm or utility failure, a KOHLER generator keeps everything—from appliances and central air to sump pump and personal computers—up and running.

20RESA/C model shown

38RCLB model shown

60RCL model shown

KOHLER RXT OR RDT AUTOMATIC TRANSFER SWITCH

The automatic transfer switch is the brain behind your generator system. It automatically transfers power to your generator during an outage. Offer available on 200-amp or above transfer switch.

POWER RELAY MODULE (PRM)†

You can prioritize what you power with Power Relay Modules (PRM). During a power outage, your entire house is connected to generator power, but PRMs cycle some circuits on and off to prevent overloading.

*Qualifying bundles must be purchased exactly as detailed in the Additional Terms on page 2 of form; all items (per bundle) must be on the same invoice.

†Two (2) Power Relay Modules must be purchased on 20RESA/20RESC bundles; 38RCLB or 60RCL bundles do not require purchase of any Power Relay Modules.
